About Tinder Foundation

- Charity and digital inclusion organisation
- We help the most vulnerable in society engage with technology and use it to improve their lives, through face-to-face support and easy to use digital learning
- Learn My Way is our online learning platform
- Design/deliver digital inclusion programmes for central/local Government, private sector, Trusts/Foundations
- Since 2010, almost 2 million people helped to get online through 5,000 UK online centres in our network

#digilibraries

Digital exclusion in the UK

12.6 million people without basic digital skills	Ipsos MORI for Go ON UK, 2015
Of which almost 6 million have never been online	ONS, Statistical Bulletin: Internet Users, 2015
60% have no qualifications 57% are aged 65+ 49% are disabled	Go ON UK, Basic Digital Skills UK Report, 2015 OxIS, Culture of the Internet, 2013
82% motivation 17% skills 21% cost of access	Ofcom, Communications Market Report, 2015; Media Use and Attitudes, 2014
86% of households have internet connected at home	Ofcom, Adults Media Use and Attitudes, 2015
23% of under-45s carry out 10 or less activities online	

Working with local authorities

- Creating a movement (eg. 100% Digital Leeds)
- Mobilising community assets people and organisations (eg. Tower Hamlets)
- Customising Learn My Way (eg. Tower Hamlets)
- Digital champion training for council front-line staff (eg. Islington)
- Consultancy (eg. Birmingham)

TINDER FOUNDATION

NDER UNDATION Tinder Foundation & Libraries

- **2,932** Library Online Centres in our network
- Libraries in 2015/2016
 - 857 used Learn My Way
 - o **22,150** people supported
 - 78,761 Learn My Way courses completed

Library Digital Inclusion Fund

- Six month action research project
- 16 library services funded across England (£100k)
- Engaged with hard to reach vulnerable people
- Raised awareness of library digital inclusion activity with local authorities

Action Research Aims

Funding enabled Library Research Partners to run action research pilots that would:

- Test and learn from a range of library basic digital skills delivery models using WiFi
 and mobile technology which support hard to reach groups
- Estimate the cost per head of delivering digital inclusion activities in libraries
- Identify methods of tracking development of basic digital skills and evidencing impact to stakeholders

Through the Libraries Digital Inclusion Fund project, we supported...

digitally excluded people to improve their basic digital skills
#digilibrar

#digilibraries

Project Demographics

people on low incomes*

people with sensory impairments

unpaid carers

job seekers*

older people over 65*

physically disabled people*

people with learning disabilities

those who are housebound or socially isolated

people with mild to moderate mental health issues

non-native English speakers

* highest groups of people reached

Reach of Project

- 827 supported to access health information online
 - Developed their digital health literacy skills

- 200 + library branches and a variety of outreach locations
 - Day care centres, social enterprises

Delivery Models

- Delivery using **library branch network** in urban and rural areas
- Tablet lending delivery try before you buy; independent learning tablet lending (Barnet Libraries); tablets lent to housebound learners (Leeds Libraries)
- Mobile classroom delivery 'Open the Box' concept (Somerset Libraries)
- Partnership delivery to help recruit volunteers, to reach established groups of hard to reach people, and to deliver in outreach locations

- Mobile Technology
 - Fixed wireless
 - mobile WiFi hotspots
 - WiFi enabled laptops and tablets that were owned either by the library service or brought in by learners

- Roles & Responsibilities
 - Pilots were managed by senior library staff
 - Delivery by
 - i. frontline library staff
 - ii. freelance paid tutors
 - iii. Senior library staff
 - iv. Staff from other Local Authority departments

- Volunteer Recruitment:
 - **75**% of Library Research Partners recruited volunteers as Digital Champions
 - 25% partnered with educational institutions, such as colleges and universities
 - Positive benefits for volunteers

- Tracking & evidencing basic digital skills
 - Learn My Way (online learning platform with built-in MI)
 - Capture IT to record (online tutor return tool)

Thanks to the Library Digital Inclusion Fund project, many learners switched to using online services, resulting in a potential...

£800,000

of savings each year for their local authorities
#digilibraries

Project Impact on Libraries

- Most to continue to deliver digital inclusion activities using models from project
- 87% of Library Services will continue using Learn My Way
- Frontline library staff engaged with digital and learnt delivery skills
- 94% formed at least one new partnership in their communities

Project Impact on Libraries

- 73% agreed project raised awareness of library digital inclusion activities at local authority level
- 80% agreed project helped advocate work libraries do in relation to supporting digitally excluded people

Project Impact on Learners

- Increased digital skills and confidence
- improved social and economic outcomes
 - Employability
 - Social contact
 - Health & wellbeing

What next...?

- Communication is **key** from Heads of Service to Frontline Staff
- Support Library services to embed learnings from Tinder Foundation's Digital
 Inclusion Fund report
- Utilise **online learning tools** and **Management Information** on offer demonstrate wider impact of library service with local partners and organisations.
- Support Local & Combined Authorities in development and effective delivery of digital strategies
