

# Join the DigiKnow Network

**We aim for Stockport to be a 100% digital borough where no one is left behind because of their digital situation.**

We are a network of partners from all sectors who promote digital inclusion. We try to ensure that residents have the devices, connectivity and skills to get online to do things that benefit them daily. We deliver digital skills support through community groups and organisations that already provide trusted support.

## **Become a DigiKnow Network Partner**

Any business, organisation or group who wants to help to tackle digital exclusion in Stockport can join.

## **Become a DigiKnow Friend**

A free one-hour online training session will equip you with an understanding of how digital exclusion impacts people and where to send people for support.

## **Become a DigiKnow Digital Champion**

Digital Champions support people to learn digital skills. Our free training day takes you to the next level, giving you the skills and confidence to help others.
